

AutoSwitch Priority Circuit

The AutoSwitch priority circuit is intended for distributing power in a vehicle with two available power sources.

DEFA AS is conforming to the requirements of both ISO 9001-2008, ISO 14001:2004 and OHSAS 18001:2007. In addition to this, our engine heaters and cables are conforming to the requirements of ISO/TS 16949:2002.

Item number

703697

Delivered in single packaging.

Installation

Equipment damage and possible injuries may result from an incomplete understanding of the installation and operation of the charger.

If you are unfamiliar with electrical systems: consult us, a dealer or a licensed electrician.

Read the mounting and user guide carefully.

Technical specifications

Input voltage [V/Hz]	230/50 ($\pm 10\%$)
Output voltage [VAC]	230
Constant operation limit [A]	16
Max. output power [W]	3680
Fuse [A/V]	16/T250
Protection grade [IP]	44
