

H = Height, W = Width, D = Depth

## PlugIn summer/winter switch

DEFA PlugIn switch for activation of 230V out on 1 or 3 DEFA PlugIn outputs. The switch is mainly used as a winter-summer switch, when you in the summer only need maintenance charging of the battery, without heating in the cabin or on engine.

DEFA AS is conforming to the requirements of both ISO 9001-2008, ISO 14001:2004 and OHSAS 18001:2007. In addition to this, our engine heaters and cables are conforming to the requirements of ISO/TS 16949:2002.

### Item number

701123 (1 input and 3 outputs)

Single pack only.

### Installation

Equipment damage and possible injuries may result from an incomplete understanding of the installation and operation of the charger.

If you are unfamiliar with electrical systems: consult us, a dealer or a licensed electrician.

Read the mounting and user guide carefully.

### Technical specifications

Input voltage [VAC]	230
Current [A]	16
IP rating [IP]	44
H/W/D [mm]	105x65x70
Weight [kg]	0,16
