

# Elite small

Elite - clean lines - functional expression - Nordic design

## Description

Body in pressure die-cast aluminium with impact 5 mm flat glass. Powder painted in grey - RAL 7035, corrosion class C5. The fitting is equipped with 1-3 LED modules. Elite is design to give maximum heat transmission and long lifetime, with a plain surface without any visible cooling ribs. CLO - Constant Light Output as standard. The fitting gratify EN 62471 requirement for photo biological safety. 6kV Surge Protection Device is integrated.

## Application areas

The plain design of the fitting makes Elite suitable in various application areas. By use of the wall fixing Elite is ideal for use as wall light around buildings and plants. Due to the street light optics the fitting is ideal for use along minor roads, tracks, foot and cycle paths and parking areas.

## Mounting

As standard the fitting is supplied with 2x2,5mm<sup>2</sup> cable, 8m length, available on request. The fixing bracket in die-cast aluminium, is reversible for mounting on arm or pole top Ø40-76mm, can be tilted in steps of 5°.

## On request

- 10kV Surge Protection Device
- Alternative effects and luminous flux
- Other cable lengths or Wieland quick connector
- Adapted for all open light control systems
- Night reduction with other levels/time settings
- Photo-cell kit
