Article number: 460762

PlugIn Branch Kit 230V

The DEFA PlugIn Branch Kit 230V comprises cables of various lengths in armoured, plastic-coated and flexible 'pipes' that shield wires from heat, as well as mechanical and chemical impacts.

PlugIn extension cord x 2

PlugIn Y-piece

PlugIn car connector

Contents		Quantity
460803	PlugIn extension cord 1,0m	2
460853	PlugIn Y-piece	1
460829	PlugIn car connector	1

Use & Assembly

The system guarantees a safe and secure connection. The PlugIn connectors eliminate all cases of incorrect connection. The red O-ring should not be visible when the PlugIn connector is engaged correctly.

DEFA AS is conforming to the requirements ISO 9001, ISO 14001 and ISO 45001. In addition to this, our engine heaters and cables are conforming to the requirements of IATF 16949.
