

Termini Clip

The DEFA Termini™ Clip is sold separately and can be used with all of DEFA's heaters in the Termini™ series.

The DEFA Termini™ Clip is placed with the plastic bracket on a flat surface on the right-hand side of the centre console with the metal bracket on the inside of the centre console.

The Termini™ Clip must be mounted so that the hot air from the heater can be blown freely up and around the car's cabin.

DEFA AS is certified and manufactures according to the following standards: ISO 9001:2008, ISO 14001:2004, OHSAS 18001:2007.

Additionally, all cables and engine heater products are produced in accordance with ISO/TS16949:2002.
