

GPS-Link - Module for Enhanced Functionality

Item number: 440047
Product name: DEFA GPS Link

GPS-Link / Finder Link

- Security alert system

If you have a WarmUp Link without the Finder Link features listed below, you can easily add them with this product. The GPS-Link simply plugs into the Link Hub, which is already installed in your vehicle.

Finder Link and the DEFA app alert you on your phone if your car is moved or stolen and allows you to locate the car on a map. It also includes Speed Alert.

When you already have DEFA WarmUp Link installed in your vehicle, you also have a subscription that covers this service. The subscription fee remains unchanged, so adding GPS-Link does not incur any additional subscription costs.

Finder Link features:

Security:
- Alerts you if the car is moved or started – even with an original key.

Finder:
- Helps you locate your car in the event of theft, or if you've forgotten where you parked.
- Lets you share coordinates with the police and your insurance company.

Speed Alert:
Lets you set a maximum speed and sends you alerts if this speed is exceeded. A useful safety feature when lending your car to young drivers.

Tip: Ask your insurance company for better terms after installing Finder Link.

Installation
Plug the GPS-Link unit to the Link Hub module already installed in your vehicle and you are good to go.

Item number	**440047**
Power consumption	**7 mA (average)**
